PROPOSAL 'A'**

WHAT DOES THE BOTTLE BILL DO?

It stops the sale of throwaway beer and soft drink containers in Michigan and gives you your money back on the containers.

WILL IT COST MICHIGAN JOBS?

No! It will generate 4,000-9,000 new jobs in the state in trucking, warehousing and retailing.

WILL IT MAKE BEER AND SOFT DRINKS MORE EXPENSIVE?

No! As a lot of their cost is in packaging, their price will remain constant or go down.

WILL IT SAVE ENERGY?

Yes! We will save enough energy here to heat every home in Grand Rapids.

WILL IT REALLY HELP THE LITTER SITUATION?

Yes! In Vermont and Oregon, states which have bottles bills, the volume of litter has decreased over 75%.

WHY IS THE BEVERAGE AND CONTAINER INDUSTRY GOING TO SPEND \$3.5 MILLION TO DEFEAT PROPOSAL A?

Because they make money with throwaways. You pay for the container and then you pay taxes to clean up the mess.

WHY DOESN'T U.S. STEEL, AMERICAN CAN AND REYNOLDS METALS WANT PROPOSAL A TO PASS?

Because they make money every time a can or bottle is thrown away. Up to 50% of the cost of the drink is in its packaging

**They HAVE THE MONEY.**  
**We HAVE THE PEOPLE.**
