Recycle Ann Arbor
The Ecology Center
417 Detroit
Ann Arbor, Michigan 48104

Once again this weekend, I watched my neighbor, Mr. William Schlecht, spend hours preparing bottles and newspapers for the Monday morning pick-up from Recycle Ann Arbor. All of the neighbors and many passers-by have taken notice of the efforts that Mr. Schlecht puts into recycling. It would be hard not to notice 150 bundles of newspapers and numerous baskets of bottles! Mr. Schlecht does his share and more not only to recycle, but also to raise the consciousness of those around him. Most of his neighbors recognize him as a very hard-working man. Even with the long hours he works, he always finds time to help a neighbor push a stuck car in winter, start a stalled car in summer, or fix a kid's bicycle. Watching him put hours of effort into recycling has forced us all to recognize that each of us could do more.

It is my hope that in some way Recycle Ann Arbor can recognize Mr. Schlecht for the work that he has done.

Thank you.

Sincerely,

Cheryl J. Grostic
