Dear Mr. Spencer:

The Ecology Center of Ann Arbor is concerned about the businesses in Ann Arbor that have illegal sanitary or floor drain connections to the Allen Creek Drain. We are aware that the County Health Department is currently testing and identifying those businesses directly involved with the use of petroleum products (those on the Priority I list). We are interested in monitoring the corrective measures taken by the City of Ann Arbor to insure compliance with the city codes regarding storm sewer systems. We would like to remain informed of any newly identified businesses dumping waste into Allen Creek. Could you please send us updated lists of identified businesses with illegal connections into the Allen Creek Drain?

We would appreciate your help in this matter.

Very truly yours,

A handwritten signature in cursive script that reads "Laurie Miller". The signature is written in dark ink and is positioned above the printed name.
