

2. How much will it cost ?

35¢/week

The one-half mil proposal would extend from 1983 to 1988, and would provide 3.9 million dollars over the six year period. The average annual cost per homeowner would be \$18.75 (based on property valued at \$75,000).

3. How will it be administered ?

The Park Advisory Commission will work together with all neighborhood, special interest, and civic groups to make the improvements as responsive to their needs and desires as possible while respecting the recommendations and priorities outlined in the 1981 Parks Recreation and Open Space Plan.

Public input and review will be sought prior to each park project being finalized by the Department of Parks and Recreation, and approved by the citizen Park Advisory Commission and City Council.
