

# Recycling Education Outreach Programs

## from the Ecology Center

### *Project Re3*

**A2 kids learning about  
Reducing, Reusing & Recycling**

This multi-media presentation is tailor-fit for Ann Arbor children, teaching what they can do to help solve the garbage problem locally. The 60 minute presentation includes slides, discussion and hands-on activities.

100%  
recycled

### *Papercapers*

This 60 to 75 minute presentation explains the basic recycling process while children produce their own examples of attractive recycled paper.

The Ecology Center's recycling education staff brings exciting interactive programs to schools on solid waste management and recycling to children of all ages.

We are very interested in collaboration with schools and combining our outreach programs with Recycling & Education Station visits.

Many **Ann Arbor Public Schools curriculum objectives** can be covered in our programs. Please call us to set up a visit suited to your group's needs.

*All Recycling Education programs are **free** for Ann Arbor Schools*

Call **761-3186** to schedule a presentation.

The Ecology Center / 417 Detroit Street / Ann Arbor, MI, 48104

The Recycling Education Outreach programs are provided by the Ecology Center of Ann Arbor / Recycle Ann Arbor, and are funded by the City of Ann Arbor.
