

HOW TO "LIGHT UP YOUR LIFE"

FLUORESCENT BULBS ARE MORE EFFICIENT AND COST LESS TO USE THAN INCANDESCENT BULBS!

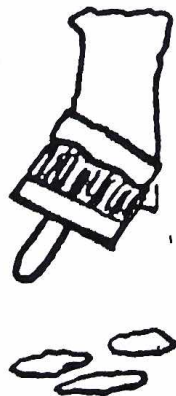

A 100 WATT BULB BURNING 10 HOURS A DAY COSTS YOU \$2.70 PER MONTH

WHEN USING INCANDESCENT BULBS, THREE-WAY BULBS WORK BEST!

LOWER WATTS = LOWER ELECTRIC BILLS

WHEN PAINTING, USE WHITE OR LIGHT COLORS FOR BEST REFLECTION OF LIGHT!

FACT: IT IS CHEAPER TO TURN A LIGHT ON AND OFF EVERY TIME YOU LEAVE A ROOM THAN TO LEAVE IT ON!
