## **WAS ELVIS AN ENVIRONMENTALIST? Activists and the King Plan "Canadian Invasion" Over Waste Dumping!**

Did Elvis recycle?

Michigan and Ontario residents will find out next week. On October 23 and 24, NO WASTE of Michigan (Network of Waste Activists Stopping Trash Exports), the Ecology Center, and the King himself will be "invading Canada." The activists will be confronting Canadian officials in Windsor and Toronto to protest Canadian dumping of massive amounts of municipal garbage and sewage sludge on Southeastern Michigan.

And Elvis? He'll be starting his "Return to Sender" tour.

NO WASTE plans to return a few "gifts" to the senders in Ontario. An "international incident" may result.

More to follow...
