

## THE 'CURBSIDE COLLECTOR'

### Advantages:

- 1. HANDLE:** The unique handle runs around the entire top perimeter of the container. Its design allows both collection employees and homeowners alike, to grasp the 'Curbside Collector' comfortably even when wearing either protective or winter gloves. The handle design also provides for extra support strength to the container.
- 2. DRAINAGE:** Our drainage system allows the retention of small amounts of liquid spillage and full drainage of rainwater or melted snow.
- 3. SUPPORT:** A CAD designed horizontal rib around the top of the 'Curbside Collector' supplies added strength to the sides and helps prevent warping.
- 4. SAFETY:** All edges on the container are rounded for the safety of both the collection employees and the homeowner.
- 5. DESIGN:** Specifically designed for the recycling industry with several unique features.
- 6. COLOUR:** Standard colour is STEEL BLUE, however, customized colours are available on request.
- 7. HOT-STAMPING:** Custom designed messages and community identification are available on all four sides of the 'Curbside Collector'.
